Lady with a Past

Why do I love vintage clothing? There are many reasons... I love dressing up, wearing things that are girly, feminine and Fun! I love the feelings and memories that it stirs not only in me but in others as well. The main reason is wearing vintage helps me to connect to the women of the Past. The women who took pride in dressing up for work, the women who made their own clothing, the women who wore aprons as a daily standard. These women were our mothers, grandmothers, and some were the icons of the decades. In a way it is to honor them and make them a part of my life today. I put on a homemade dress and think of my mother; an apron, my grandmother; a 1960's suit and gloves, Jackie Kennedy comes to mine. Vintage clothing has a special magic that in wearing it The Ladies from the Past come alive.
